Discuss a resolution of the City Council of the City of Sachse, Texas, approving Purchase Orders in the amount not to exceed nine hundred fifty-six thousand two hundred twelve dollars and forty cents (\$956,212.40) to Reynolds Asphalt and Construction Company, Incorporated for asphalt roadway improvement projects.

Executive Summary

The City's Capital Improvement Plan (CIP) includes funds for asphalt roadway improvements. These roads include Sachse Road/5th Street, Cartwright Drive, Bonanza Drive, and Ponderosa Drive. In 2012, the City Council approved an Interlocal Cooperative Purchasing Agreement with the City of Grand Prairie, which allows the City to utilize existing contracts Grand Prairie has executed with contractors for construction projects. One such contract is for asphalt roadway improvements. Purchase orders are required to authorize the contractor to begin work on the asphalt roadways listed in the CIP. The Purchase Orders are in an amount based upon the City Council approved budget for each project. The Contractor has provided an initial cost estimate for each project, assuming full depth replacement. The Contractor will provide a geotechnical assessment to determine the final scope for each project, including where full depth street replacement is necessary, and where partial depth street replacement is necessary. Staff will

return to Council with the final scope and final cost estimate upon completion of the assessment.
